

School's Annual Report (2024-2025)

1. School Information

The Millennium School, Surat (TMS-Surat), is situated on the outskirts of Surat, Gujarat, and built across 6.5 acres of land. The school building features spacious and innovatively designed air-conditioned academic and activity areas, along with support facilities that include administrative areas and service areas. Uniquely designed classrooms, corridors and common spaces complement the school's unique teaching and learning pedagogy. The School has completed fourteen years and has Classes from Nursery (which we call Emerging Wings - EW) to Class XII (offering Commerce, Humanities and Science). The school is affiliated with the Central Board of Secondary Education (CBSE), New Delhi, and believes in a progressive teaching-learning approach. The School also provides meals and Air-conditioned transport facilities to students and staff.

The school is managed by the Maitri Charitable Trust and was founded in 2013. and has had a progressive journey, thanks to the collective efforts of all members of the TMS community.

Our Vision and Mission are —

Vision: "The Millennium School is committed to nurture the inherent potential and talent of each child, creating lifelong learners who will be the leaders of tomorrow. With parents as our partners, we aspire to create global citizens who are innovative and have a strong sense of values."

Mission: "To inspire evolvement of children into self-reliant, value-oriented individuals, to foster spiritual upliftment and infuse a spirit of responsibility for the emergence of a global society."

Our School Premises as viewed from the School Ground

Training & Development of Teachers

All **new teachers** undergo a rigorous **induction training, mentored by our in-house training head, Ms Meenakshi Mahajan**, who is also a CBSE Resource Person.

Additionally, our facilitators undergo Continuous Professional Development (CPDs) through recognised training bodies such as CBSE, Chrysalis, and other esteemed organisations. These training programmes are thoughtfully designed to enhance educators' skills, align teaching practices with emerging educational standards, and uphold the school's vision in every classroom.

Our training framework focuses on interactive, engaging and goal-oriented sessions that empower teachers to evolve as reflective and future-ready practitioners. Learning occurs through a well-structured, phased approach that enables the gradual absorption, implementation, and mastery of new pedagogical practices, ensuring a seamless learning continuum for every educator.

Classes	Particulars	2022-2023	2023-24	2024-25
Class X	90% to 100%	7	20	10
	75% to 89%	21	34	32
	50% to 74%	32	10	22
	Below 49%	1	1	2
	Average % Scored	77.96%	79.06%	76.38%
Class XII	90% to 100%	4	18	11
	75% to 89%	23	21	26
	50% to 74%	29	25	34
	Below 49%	1	1	0
	Average % Scored	71.94%	78.04%	75.65%

School's Annual Report (2024-2025)

A consistent pass percentage is an excellent achievement, reflecting the academic success of the entire student body. TMS-Surat takes pride in maintaining high academic standards and fostering an environment that encourages excellence.

At TMS-Surat, we take pride in the outstanding performance of our students not only in the CBSE Board Examinations but also in various other competitive examinations such as the SOF Olympiads! Such achievements showcase the students' academic prowess, dedication, and the effectiveness of the educational programs and support provided by the school.

School's Annual Report (2024-2025)

7. Environment Education Efforts

An ancient form of performing arts, Street Plays or Nukkad Natak as they are more popularly called, are an expression of issues prevailing in the society.

Our students of classes EW-RTF performed Nukkad Natak, thereby taking a step to raise awareness among the people on the topics of Traffic Awareness, Save Electricity, Say NO to plastic, Energy Conservation, Keep City Clean.

All in all, it was a fruitful learning experience for the students.

TMS-Surat would like to extend gratitude to the entire management of [VR MALL](#) for their cooperation.

School's Annual Report (2024-2025)

8. Co-scholastics Achievements

We value the vision of holistic development of the students. Through holistic development, we ensure that we cater not only to the mental development of the students but also to their physical development. Being a day-boarding school, we offer Performing & Visual Art (PVA) and Sports Activities to all the students, fostering our vision of holistic development.

Through different intramural competitions, we also provide an environment for healthy and fair competition amongst the Peers. We also provide opportunities for our students to showcase their talent through broader Extramural Competition at different levels.

Our students have performed excellently across various co-curricular activities. Share below is a summary of the number of participants for the AY 2024-25 in sports activities:

Name of Games	SGFI	Khel Mahakumbh	13 th Gujarat State Cadet Taekwondo Championship	44 th Gujarat State Championship	4 th Gujarat State Sub-Junior Taekwondo Championship	7 th Heroes Taekwondo International Competition

School's Annual Report (2024-2025)

9. Innovations

To further enhance conceptual clarity and classroom engagement, we have introduced **Genie technology**. Teachers use this tool to explain topics more effectively and to provide students with richer practical exposure.

The Genie Smartboard

This academic year, we have also introduced **Robotics** as a subject. Every student receives a Robotics kit, and one dedicated period has been allotted in the timetable to ensure meaningful hands-on learning and skill development.

A TMS Student winning a Robotics Competition

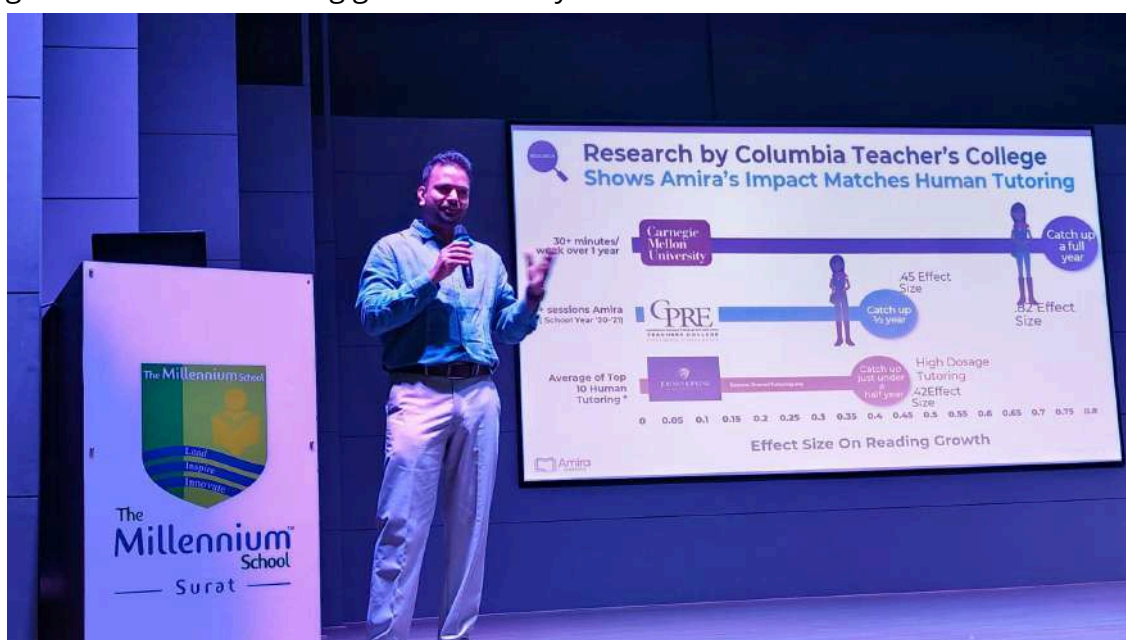

School's Annual Report (2024-2025)

Our Sports Department has adopted **Shape India**, the world's first K-5 Sports & Physical Education platform, to offer improved sports practice and exposure. This research-based, international-standard programme focuses on developing advanced skills in specific sports using proven techniques and tactics. It includes customised fitness modules, skill assessments, and detailed progress reports with analytics for every student.

We have implemented the **Amira Learning App**, an AI-based tool that provides one-on-one reading assistance. It not only strengthens students' vocabulary but also supports them in achieving their individual reading goals effectively.

Mr Sannjay Pandit orienting the parents about *Amira Learning*

In addition to other physical resources, we have also installed an interactive panel, by Optoma, in our Mathematics Lab to make learning mathematics engaging and impactful.

School's Annual Report **(2024-2025)**

11. PTA Activities

The PTA meetings at The Millennium School, Surat focused on strengthening academic processes, enhancing parent engagement and promoting holistic student development while reinforcing the school's quality standards and institutional growth.

Key discussions included the effectiveness of the feedback system, the need for increased parent involvement, structured follow-up on book corrections and completion of missed academic work, and awareness regarding SQAA practices.

The meeting also emphasized the expansion of the Holistic Progress Card to higher classes and the continuation of new initiatives such as Amira Learning, enrichment programs in drama and music, and strategic branding through promotional videos.

Action plans were clearly outlined with responsibilities assigned to the Principal, Coordinators, Parents, and SMC, with a mix of immediate and long-term implementation timelines to ensure sustained improvement and collaborative progress.

School's Annual Report (2024-2025)

12. Important SMC Decisions

We've categorised our future plans through external collaborations / third-party initiatives and internal initiatives (within the current functioning of the school)

A. Internal initiatives (for AY 2025-26):

- i. **Introduction of the Innovative Annual Curriculum and Pedagogy Plan (i-ACPP):** We introduced the i-ACPP across all school stages (from Nursery to XII) to manage interdisciplinary learning of scholastic subjects innovatively with events and activities scheduled throughout the year. The i-ACPP was used as a tool to smartly interlink the planned events/activities of the month with any one of the subjects being taught. ([Annexure 1](#) provided to share a glimpse of one i-ACPP)
- ii. **Integration of the PVA and the Sports team in four mainstream stages:** To align with the vision of NEP 2020 and the NCF-SE, the school integrated the PVA and Sports staff members with the four main stream departments (Foundational Stage, Preparatory Stage, Middle Stage and Secondary Stage). In the integration, the co-scholastic teachers were assigned classes in the respective stages and assigned roles as teachers for those stages. They were even assigned desks in the same staffrooms as the mainstream departments.
- iii. **Reintroduction of Clubs in Classes VI to X:** To reintroduce Clubs with a focus on smartly providing co-curricular activities. and the culmination of their learning through a resourcefully planned club presentation for the parents.
- iv. **Introduction of Parents' Podium (for Parent Engagement) for All Classes:** The concept of Parents' Podium is simple yet powerful. We invited interested parents to visit our school and share their expertise, experiences, or passions with the children in their ward's section in the classroom.
- v. **Planning subject-wise events/competitions:** Through this integrated design, students will engage in and collaborate on innovative, trending-themed events/competitions, thereby enhancing their confidence and communication. The school thus nurtures informed, reflective learners who can connect textbook concepts with everyday life and evolving global realities. Examples of planned events/competitions — *Future Innovation through Life Skills, Art Representation through PVA, AR/VR reality through Computers, Eco-friendly model through EVS and Shark Tank through Maths.*
- vi. **Hosting Inter-school competitions for all stages (i.e. all age-group students):** We took on the objective of inviting schools from the city to participate in competitions for all age-group

School's Annual Report (2024-2025)

students, spread throughout the year. This is to provide a platform for our school students and throughout the city to showcase their skills and strengthen their relationships with peers. The following are the competitions planned:

- Millennium Got Talent (EW - RTF 2)
- Inter-school Public Speaking (I and II)
- Nukkad Natak (III-V)
- SciNova (VI - X)
- Young Visionary Summit (XI-XII)

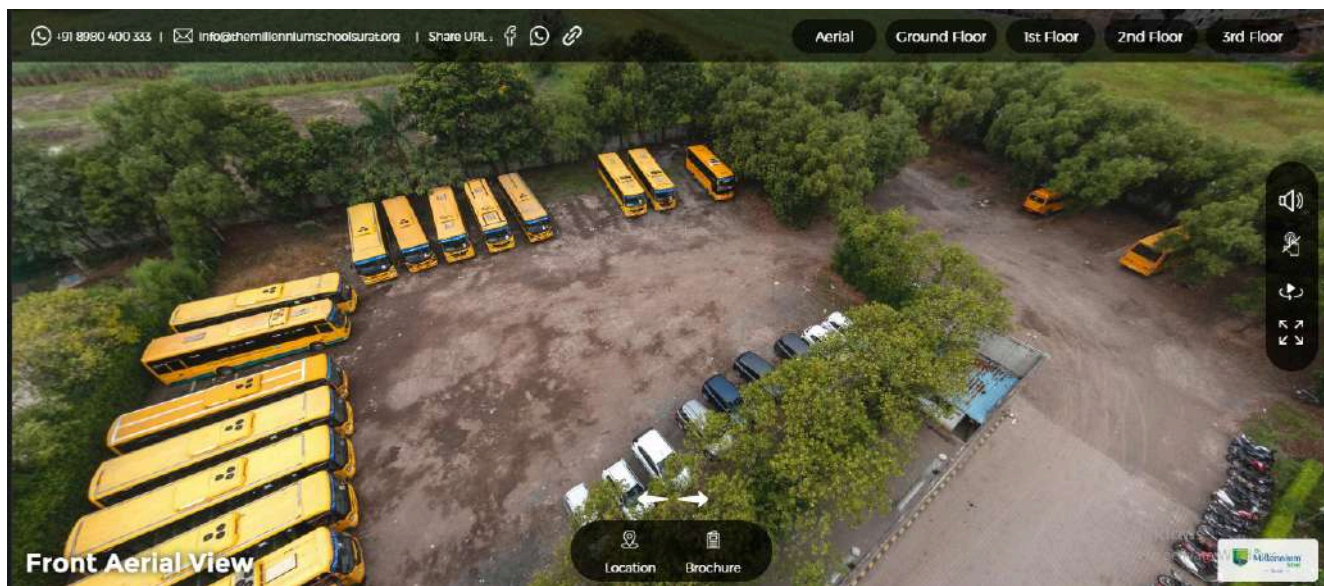

B. External collaborations / Third-party initiatives:

- i. **NCC Room (for girls of Classes VII and VIII):** To strengthen our collaboration for NCC and cement our commitment to the national cause, we have decided to allocate a specific room for the NCC initiative.
- ii. **Nourysh (for students of Classes EW to III):** We introduced books from **Nourysh** — India's first trans-disciplinary music curriculum, in 2025-26. A structured, audio-focused curriculum integrating Indian and global music styles, designed to develop musicianship skills, cognitions, creativity, and emotional intelligence in children.
- iii. **Hosting India's International Movement to Unite Nations (I.I.M.U.N) for Classes VI to XII:** Host such conferences to provide students a forum to discuss real-world topics and issues, which further strengthen their communication skills, interpersonal skills, problem-solving skills and teamwork. Such opportunities add value to their college applications in the future, and more importantly, these conferences provide students a platform to learn from eminent speakers and also interact with peers from across the city on one campus.
- iv. **Building a Sports Complex (in the coming years):** We have a vision of building a Sports Complex in the coming years to cater to the needs of developing and enhancing the students' sports abilities.
- v. **Constructing New Block (in the coming years):** We will also be constructing an additional building for additional classrooms to accommodate the growing student population in the coming years.
- vi. **Paver Blocks in the School Parking:** With the growing students, our fleet of buses is growing as well, and to cater to the smoother transition of students during arrival and dispersal, we had to redevelop our bus parking area with paver blocks.

School's Annual Report
(2024-2025)

Bus Parking (without Paver's Blocks in 2024-25)

Bus Parking (with Paver's Blocks in 2025-26)

vii. **IP Cameras with Audio facility across the campus:** To further strengthen the safety and

School's Annual Report
(2024-2025)

security of our students, the school plans to refurbish the entire campus with IP Cameras (with audio facility)

- viii. **Amping up the Internet Speed to 200 Mbps:** With a majority of our database online and integration of Chrysalis' Genie, we had decided to increase our internet surfing speed from 30 Mbps to 200 Mbps (leaseline)

School's Annual Report (2024-2025)

13. Student Strength

The report below provides an overview of the student population trends at The Millennium School, Surat, over the past 3 years. The analysis indicates a consistent and notable increase in student enrollment during this period. This consistent progress is a testament to the conducive learning environment provided to the young learners.

Classes	2022-23	2023-24	2024-25
Early Wings (Nursery)	11	13	8
Ready-To-Fly - I (Junior Kindergarten)	44	53	70
Ready-To-Fly-II (Senior Kindergarten)	39	69	88
Class I	87	68	140
Class II	91	103	69
Class III	115	94	113
Class IV	117	115	99
Class V	86	114	120
Class VI	98	93	114
Class VII	94	108	92
Class VIII	64	96	116

In the Academic Year 2024-25, our student strength has crossed 1300 students. The steady increase in student enrollment at TMS-Surat is a testament to the school's dedication to fostering a conducive learning environment. Through strategic planning and continuous efforts, the school aims to accommodate the growing student population while maintaining the high standards of education for which it is known.

School's Annual Report (2024-2025)

14. Teaching practices adopted

In 2024-25, we had a staff strength of 110+ teachers, with a student strength of 1340+ students; our teacher-student ratio stood at 1:13, with our class-teacher ratio at 1:2.2, well beyond the CBSE cap of 1:1.5. We've drafted an elaborate roadmap for a learner's learning journey at TMS.

Foundational Years Programme (Nursery to Class I)

TMS-Surat has partnered with **Chrysalis ThinkRoom**, an AI-enhanced, research-based curriculum that fosters **foundational literacy, numeracy, and holistic development**. Rooted in the **Meta-Thinking Method**, it nurtures curiosity, creativity, and emotional intelligence through a **play-based, inquiry-led approach** aligned with NEP and NCF. The curriculum emphasises experiential learning, SEL, and developmentally appropriate milestones through engaging methods like stories, songs, experiments, and manipulatives.

We use books designed by Chrysalis ThinkRoom

Primary Years Programme (Classes II to V)

The Chrysalis Primary Programme equips students with **critical thinking, creativity, and real-world problem-solving skills** across core subjects. Lessons are delivered through the innovative **ThinkRoom Studio**, promoting deep understanding via projects, questioning-based learning, and multi-sensory experiences. Subjects include **English, Hindi, Gujarati, Math, Science, Social Studies, Coding & Emerging Technologies**

Each lesson integrates **values, SEL, and differentiated learning styles**, supported by Chrysalis's **4 Facets of Thinking** — Look Deep, Look Around, Look Within, and Look Beyond.

School's Annual Report (2024-2025)

Assessment is **continuous, formative, and child-centric**, aligned with the **Holistic Progress Card (HPC)**. It focuses on individual growth, strengths, and personalised feedback, ensuring learning is meaningful and measurable.

Technology Integration

Our classrooms feature **ThinkRoom Genie**, an AR-enabled teaching console that brings complex concepts to life in 3D, enhancing comprehension and engagement.

Middle Years Programme (Class VI to VIII)

Our Middle School Programme makes learning a joyous, engaging, experiential, meaningful and creative process for all children. We follow a fourfold process that takes the learner through various stages of learning. The process itself is a never-ending spiral, a continuum that may begin at any point but one that never ends.

1. **Excite, Engage and Encourage** — Creates an interest and eagerness to learn with a focus on effort rather than the outcome
2. **Discover, Do, and Document** — Gives information and activities so learners can retain the knowledge through drill and practice
3. **Assimilate, Analyse and Apply** — Helps learners to internalise the acquired knowledge and apply the knowledge in real-life situations with minimal instructional inputs
4. **Consolidate, Construct and Create** — The learner merges all relevant information to build the concept on the consolidated information and creates something to add to the existing knowledge in her/his unique way.

The system also builds them into self-directed learners, with values and life skills that will equip them for the challenges of the 21st century.

Secondary Years Programme (Classes IX to XII)

The Secondary Years Programme is designed to provide a balanced and holistic education. It emphasises **conceptual understanding, interdisciplinary learning, and application-oriented knowledge** across core subjects like Languages, Mathematics, Science, and Social Science in Classes IX–X, and a range of academic and vocational electives in Classes XI–XII.

The curriculum also promotes 21st-century skills such as critical thinking, communication, collaboration, creativity, digital literacy, and problem-solving.

School's Annual Report (2024-2025)

Our secondary stage learning systems encourage a **learner-centric, experiential**, and **constructivist approach** to teaching and learning. Key pedagogical features include:

- **Experiential Learning:** Project-based tasks, lab work, field visits, and real-life applications.
- **Integrated and Interdisciplinary Learning:** Connecting concepts across subjects to enhance understanding.
- **Competency-Based Learning:** Emphasis on skill development over rote memorisation.
- **Inclusivity and Differentiation:** Catering to varied learning needs and styles.
- **Use of Technology:** Integration of ICT tools and digital platforms to enhance engagement.

Assessment Overview

Assessments are a very important part of the curriculum of our learning systems. It helps to bring up the skill levels of each learner.

In the Foundational Years and Primary Years, it is continuous, formative, and child-centric, aligned with the **Holistic Progress Card (HPC)**. It focuses on individual growth, strengths, and personalised feedback, ensuring learning is meaningful and measurable.

In the Middle Years and Secondary Years, we follow a continuous and comprehensive evaluation model with a balance of formative and summative assessments:

- Classes VIII–X: Internal assessments (periodic tests, portfolio, subject enrichment, and practical work) are combined with the annual CBSE Board Exams in Class X.
- Classes XI–XII: Schools conduct term exams and practicals for Class XI, while Class XII culminates in the CBSE Board Examinations, which include both theory and practical components, where applicable.

Assessments are designed to test conceptual clarity, analytical skills, creativity, and application of knowledge, moving beyond rote learning.

Complementing Co-curricular Initiatives

To realise this mission, we offer a curriculum that seamlessly integrates academic rigour with co-curricular activities, sports, arts, and community service, ensuring intellectual, emotional, physical, and spiritual growth. Our robust **Student Council**—comprising 14 committees—gives students authentic leadership opportunities, fostering confidence, initiative, and responsibility. The curriculum

School's Annual Report (2024-2025)

Participants from different schools at the *Young Visionary Summit*

We actively collaborate with parents as partners in their child's learning journey, creating a support system that nurtures holistic growth both at home and at school. Emotional and psychological well-being are prioritised through counselling and **mentorship programs**, ensuring resilience and self-awareness. Our inclusive environment values diversity and encourages every student to explore and develop their unique strengths. By balancing academic excellence with values-based education, we prepare our students to be responsible global citizens with strong moral character and social consciousness.

Students at the *Reverse Mentoring Programme*

School's Annual Report **(2024-2025)**

We also invite various eminent professionals from various fields, as **Guest Speakers**, to share about their fields of work, and enlighten and inspire our young learners.

We also offer a **bridge course** to the learners when they transition to the next class. This is offered to those students who feel the need to strengthen their rudimentary concepts before starting the new Academic Year. This initiative helps minimise/eliminate any learning gaps in the students.

We have also introduced the **Wellspire Program** for Class VII and VIII students. This programme empowers learners to cultivate empathy and positive behaviour, fostering kindness, emotional intelligence, and meaningful interpersonal interactions.

We track the effectiveness of CPDs of our facilitators through continuous classroom observations and identify training needs through regular system audits.

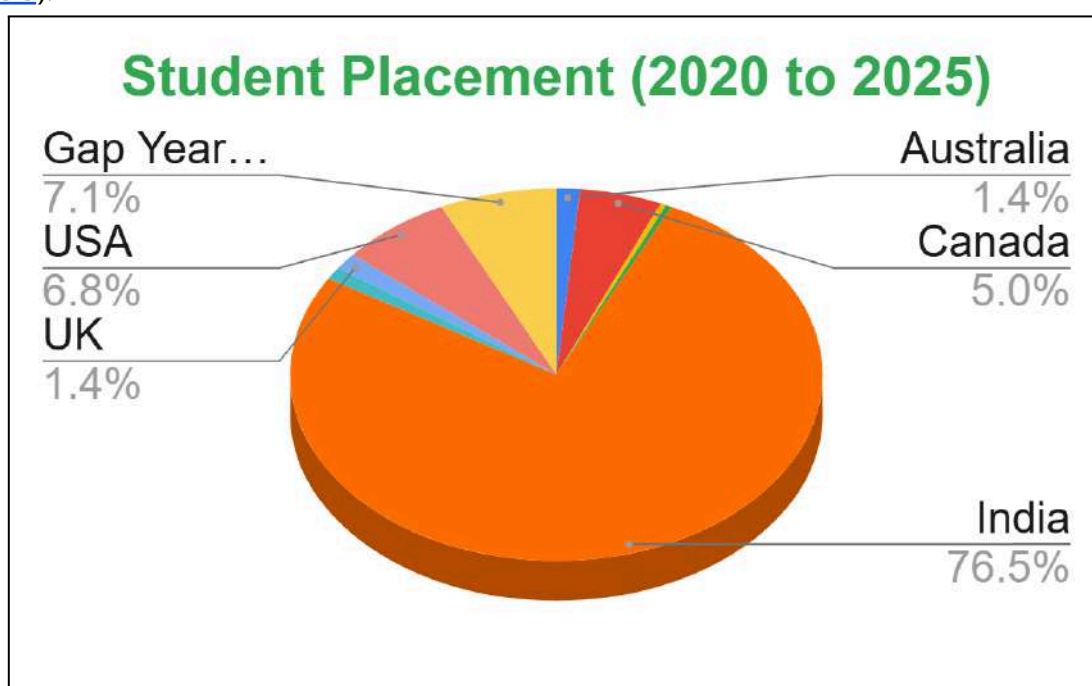

School's Annual Report (2024-2025)

15. Alumni Placement

Our School is over a decade old now, and our first batch of Class XII graduated in 2020, with a majority of our alumni still in colleges/universities. We are proud to share that our alumni are pursuing higher education in colleges/universities across the globe. We've annexed a list of universities displaying the locations of our students pursuing higher education around the world. ([Annexure 3](#)).

Many of our alumni have also received scholarships from various universities. Shared below is data on Scholarships received, in Indian Rupees, for the last three application years.

Scholarships earned by our students in the past three years:

2022-2023	INR 3,787,542
2023-2024	INR 1,634,184
2024-2025	INR 3,051,000
